

HANCE

2 Circuit Track Spotlight

DESCRIPTION

HANCE is a comprehensive range of track-mounted luminaires available in a wide selection of lumen outputs, distribution angles, color temperatures, and accessories, catering to a wide range of lighting requirements. The product line provides optimal lighting solutions while offering minimal visual impact, which is achieved through the integration of the driver into a single unit, eliminating the need for a separate driver enclosure. The cast aluminum housing facilitates efficient thermal management while imparting a modern and sophisticated touch of illumination. The contoured swivel arm enables the stem to become an integral component of the spotlight, making it suitable for use as a downlight. These luminaires are compatible with 2-Circuit, 2-Neutral Line Voltage Track.

Date: _____ Type: _____ Catalog Number: _____
